DOUBLE MAJORS AND MINORS

Check with the secondary department to find out what their specific requirements are for a major or minor in that program. Once you have taken 1 or 2 classes in that department and have decided you want to pursue the major or minor, meet with an advisor in that department and complete the Major/Minor Declaration Form (including the "Proposed Course Sequence"). Then, make an appointment with Scott Loane on the 3rd Floor to complete the declaration process. He will sign your Declaration Form.

<i>Minor</i>	<i>Double Major</i>
Usually 16 credits (4 classes)	Usually 32-40 credits (8 or more classes)
With careful planning, these courses could double count towards your General Education (Liberal Arts) requirement. For example, if you minor in Anthropology, 2 classes could double count towards your Science requirement while the other 2 classes could count towards your Balance of Liberal Arts requirement.	There are specific courses you must take in different areas within your secondary department. Please note that completing a double major will require you to reserve Elective credits for some of these academic courses. With careful planning, you will not need to spend extra time or money on a double major.
